HENDRY

Junior Full Stack Web Developer · Next.js · React · Supabase

Batam, Indonesia · hendryhuang70@gmail.com · +62 821 5096 2909
GitHub: github.com/xchnly · Portfolio: portofolio-hendry.vercel.app

PROFILE

Final-year Informatics Engineering student (GPA 3.86/4.00) with 4+ years of work experience in logistics, manufacturing, and administration. Built SITCA, an internal tracking app in daily use at a logistics company that cut manual work by up to 80%. Full-stack across Next.js, React, Laravel, Supabase, and Firebase, plus hands-on IoT and computer-vision projects. Seeking a Junior Full Stack / Frontend Developer role or freelance web projects.

TECHNICAL SKILLS

Frontend	Next.js, React, Vue, Tailwind CSS, HTML/CSS, Figma
Backend & Database	Laravel, PHP, MySQL, Firebase, Supabase
Languages	JavaScript, TypeScript, Python
AI / ML & IoT	TensorFlow, YOLO, image segmentation, ESP32 / MicroPython
Tools	Git, GitHub, Vercel, Microsoft Office

PROJECTS

SITCA – Logistics Tracking & Control App | Next.js, Supabase

- Internal platform for SITC Batam to track containers and manifests, replacing manual record-keeping.
- Reduced operational workload by up to 80%.

Guava Disease Segmentation (Undergraduate Thesis) | Python, YOLO

- Segments diseases on guava (jambu biji) using YOLO baselines.
- Deployed on mobile.

Homecycle – Fruit & Vegetable Freshness Reminder | Mobile, AI

- Team project that estimates freshness and shelf life of produce and sends reminders.

Finley – Personal Finance Web App | Web

- Website for tracking and managing personal finances.

PETANI – IoT Mini Plant Watering | ESP32

- Automatic plant watering system built on a microcontroller.

SNAFH-R1 – IoT People Tracking | IoT

- Automatic people-tracking system.

WORK EXPERIENCE
